## AT20 Regulator & Octopus

Apeks has long been regarded as the regulator of choice for technical divers who require extreme performance. The AT20/20 has a fully balanced first and second stage that delivers exceptional performance. Apeks is part of the Aqua Lung group of companies, the world's first and still leading scuba company.

- Pneumatically balanced system
- Integrated Venturi Control
- Extremely efficient and compact integrated exhaust
- Comfo Bite mouthpiece - for comfort and to reduce jaw fatigue

## Pro LT

This unisex weight-integrated, jacket style BC is the latest addition to the highly successful family of "Pro" BCs. Those that dive with Pro LT will benefit from the quality and knowledge that Aqua Lung have developed in BC design and construction over the last four decades. It packs features, style and durability into an affordable package.

- Includes attachment grommets for knife
- Positioning strap allows you to set the Pro LT at the perfect height each time
- Right shoulder pull dump
- Lower right dump for head down orientation
- Chest strap for added security

## SUUNTO

### Gekko

Suunto is the world's number one dive computer manufacturer due to its reputation for leading edge features and reliability. The Gekko features Suunto's unique Suunto RGBM algorithm that maximizes your bottom time while optimizing safety.

- Air, Gauge and Nitrox modes
- Extensive memory functions
- Suunto RGBM model
- Audible alarm
- Phosphorescent display
- Easy and reliable push-buttons
- User-replaceable battery
